|--------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| Introduction .....                                                                                                                                           | 7   |
| Chapter 1                                                                                                                                                    |     |
| An Overview of the Implications of National Innovation Systems and Policies in the European Union: Linking Economics and Technology in an Innovation Context |     |
| <i>Walter Leal</i> .....                                                                                                                                     | 9   |
| Chapter 2                                                                                                                                                    |     |
| Diversity of national innovation systems in the European Union – An advantage or a constraint?                                                               |     |
| <i>Marzenna Anna Weresa</i> .....                                                                                                                            | 26  |
| Chapter 3                                                                                                                                                    |     |
| Innovation Activities of German Enterprises – New Results from the Annual Innovation Survey by the ZEW                                                       |     |
| <i>Christian Rammer, Birgit Aschhoff, Bettina Peters, Tobias Schmidt</i> .....                                                                               | 42  |
| Chapter 4                                                                                                                                                    |     |
| R&D and Innovation Activities in the “Small is Beautiful” Sector                                                                                             |     |
| <i>Annamária Inzelt</i> .....                                                                                                                                | 71  |
| Chapter 5                                                                                                                                                    |     |
| Support for innovation in the United Kingdom                                                                                                                 |     |
| <i>Lynn M. Martin</i> .....                                                                                                                                  | 95  |
| Chapter 6                                                                                                                                                    |     |
| Local Municipality Contribution to Implementation of Regional Innovation Strategy in Latvia                                                                  |     |
| <i>Marika Rudzite</i> .....                                                                                                                                  | 118 |
| Chapter 7                                                                                                                                                    |     |
| The Dynamics of Public and Private Entities as Promoters of Innovation: Complementarity and Sustainable Growth                                               |     |
| <i>Rita Santos</i> .....                                                                                                                                     | 132 |

## Chapter 8

## Technology transfer in transition: Some evidence from Poland

*Andrzej H. Jasinski* ..... 159

## Chapter 9

## The Innovative Potential of the Polish Computer Sciences and IT Industry

*Marcin Gomulka* ..... 173

## Chapter 10

Galileo Programme and its Impact on Innovation:  
a Case Study of Technology Transfer to Central and Eastern Europe

*Roman Gurbiel*..... 191

## Chapter 11

## An Overview of Supporting Measures to Innovation in Europe

*Walter Leal Filho* ..... 212
