Acronyms	15
Preface	17
1. Micro level estimation of income	19
1.1 Introduction	19
1.2 Methodology and Data	20
1.2.1 The Basic Methodology	20
1.2.2 The Income Model	21
1.2.3 The Implementation Procedure	21
1.2.4 Data Sources	26
1.3 Results	27
1.3.1 Regression Results	27
1.3.2 Poverty Estimates	37
1.3.3 Poverty and Inequality Maps	40
1.3.4 Pro-poor Growth Evidence	44
1.4 Discussion	46
1.5 Conclusions	48
2. Does Inequality Harm Income Mobility and Growth?	51
2.1 Introduction	51
2.2 Data: macro, micro and small area welfare estimates	53
2.3 Small area welfare estimation	54
2.4 The model	59
2.5 Estimation	67
2.6 Results	71
2.7 Discussion	87
2.8 Conclusions	90
3. Characterization of inequality changes through microeconomic decomposition	93
3.1 Introduction	93
3.2 Methodology	95
3.3 Income inequality in Paraguay: basic facts and sources of changes	100
3.3.1 Returns to education	102
3.3.2 Gender wage gap	108
3.3.3 Returns to experience	108
3.3.4 Unobservable Factors	109
3.3.5 Hours of work	110

3.3.6 Labour market participation	111
3.3.7 Education	115
3.4 Estimation strategy	116
3.5 Results	120
3.6 Discussion	126
3.7 Conclusions	128
A: Annex to Chapter 1	131
B: Annex to Chapter 2	134
Bibliography	135
